Emergency light

Product description

This emergency lighting device combines functionality with stylish design, focusing on sustainability and reliability in critical situations. It is equipped with energy-efficient LED lighting, ensuring optimal light output and long-lasting performance. Additionally, it features an integrated LiFePO4 battery, known for its longevity and reliability, offering an impressive lifespan of 8 years. This battery ensures consistent and stable operation, even in emergencies.

The sleek and sturdy design seamlessly integrates into various environments, from offices to industrial facilities. The version with a pictogram clearly indicates the direction to be taken in the event of an emergency, which is crucial for fast and safe evacuation processes. Thanks to its modular design, the device is easy to install and maintain, and the high-quality materials ensure a long service life. It is ideal for emergency exits, stairwells, and other critical areas where reliable emergency lighting is essential.

Options

Battery with an 8-year lifespan

Yellow pipe

Black finish

For ceiling and wall mounting

**Continuous operation (CO)
Standby operation (SO)**

Including pictograms

Certificates available:

CB/CE/UKCA/RoHS/REACH

Cut-out installation dimensions: 360 x 126 mm

Item number	MOSC-200AT
Dimensions in mm	351L x 111W x 63H
Watt	3,8W
IK impact resistance rating	IK07
IP protection	IP66
Autonomy	3 hours
LED lifespan	50,000 hours
Light source intensity	200 lumens
Detection range	20 meters
Battery	1S1P8650
Battery lifespan	8 years
Autotest	Yes
Warranty	5 years

Item number	Product description
STMOSCU	Pictogram sticker Mosca on top
STMOSCD	Pictogram sticker Mosca below
STMOSCL	Pictogram sticker Mosca left
STMOSCR	Piktogrammaufkleber Mosca rechts
